PhD: Numerical analysis on evaluating retrofitting methods for bridges [1]

Supervisors:

A/Prof. Karu Karunasena B) Dr Weena

Lokuge Contact: karu.karunasena@usq.edu.au [2] University of Southern Queensland

Frequency of flood events in Australia, during the past decade appears to have increased. Resilience of critical infrastructure such as roads and bridges is vital in evacuation support activities for disaster response and recovery. Recent 2013 flood event in Lockyer Valley region shows that different elements of the bridges are damaged due to excessive flood loadings.

Postgraduate Scholarships Application Process

Bushfire and Natural Hazards CRC postgraduate scholarships are available for students pursuing research higher degrees in the bushfire research fields, in line with Bushfire and Natural Hazards CRC projects.

Both Full and Top Up scholarships and project support funding are available for outstanding students, with preference given to the provision of top up scholarships.

Current funding amounts are:

- Full Scholarships of up to \$28,000 per annum for three and a half years.
- Top Up scholarships of \$10,000 per annum for three and a half years to holders of Australian Postgraduate Awards (APA) and University Research Scholarships.

Bushfire & Natural Hazard CRC Scholarship Application Kit

You are welcome to submit enquiries using the form on this page.
However, you must complete this form to make an application.
