HOW CAN WE DELIVER TRAINING TO BUILD NORTH AUSTRALIAN COMMUNITY RESILIENCE?

Steve Sutton
Darwin Centre for Bushfire Research,
Research Institute for the Environment & Livelihoods
Charles Darwin University, Northern Territory
REMOTE NORTH AUSTRALIAN BNH CONTEXT

360,000 People
+ Communities from ‘outer regional’ to ‘very remote’.
+ Remote communities mostly inhabited by indigenous Australians (% rises with remoteness)
+ Low population densities
+ Poor infrastructure
+ Poor communications
+ Disconnect with emergency management paradigm
+ Low levels of formal education and training
+ Limited labour market experience
REMOTE NORTH AUSTRALIAN BNH CONTEXT  2

Centre for Appropriate Technology
   “A Failed State”

= Almost no formal emergency management capacity
= No spare capacity to fall back on
= No “Plan B”
= Very limited community resilience (?)

Bureaucracies are bound by their culture to look for and build decision support structures that mimic their own. This has moved from king plates to rangers.

The community wants (❤️) rangers but they also want decision-making to remain traditional.
Bininj/Balanda Model of training “BiBa”

**Bininj Trainers** [4 Elders each with different specialisation] Otto Campion, Maisie Cameron, Charlie Brian, Mike Redford

**ARPNet facilitators/Reviewers** Otto Bulmaniya Campion and Bev Sithole

**4 Trainers** [Multi disciplinary group] Steve Sutton, Andrew Edwards, David Campbell, Rohan Fisher
THANK YOU
