Critical Organisational Operational issues

- Over 400 Bushfire incidents attended/managed annually
- Remote Eco Tourism Ventures – Fire/Mitigation Management
- Increasing community expectations and limitations
- Remote firefighting and resourcing
Over 400 Bushfire incidents attended/managed annually

- Resource requirements
- Timely and accurate information
- Stakeholder management
- Fatigue management
Remote Eco Tourism Ventures – Fire/Mitigation Management

- Compliance and engagement
- Distances to respond
- Large numbers of international tourists
- Turnover of staff and basic training
Increasing Community Expectations and Limitations

- Aerial suppression
- Funding verses actual expenditure
- Volunteer responders
- Equipment limitations
Remote firefighting and resourcing

- Large response area
- Cost verse benefit
- Logistics and resourcing
- Responder skill and attributes
Establishment of Remote Aboriginal Fire & Emergency Service Units

- Increasing remote community resilience and capacity
- Currently we have 3 FES Units established
- Over 50 Volunteers trained and registered
- Responding to areas that were previously managed from town-based emergency services
